

The Seattle AWIS Monthly Programming Series presents:

Innovations in 3D Printing

Wednesday – February 17, 2016 – 6:00 PM

Fred Hutchinson Cancer Research Center – Pelton Auditorium

1100 Fairview Ave. N., Seattle, WA 98109 – Free visitor parking

6:00 PM - Networking and Refreshments

6:30 PM - Introductions and Program

7:45 PM - Networking and Dessert

Come join us and learn about innovations and research involving 3D printing. Our panelists will cover many aspects of 3D printing including: 3D printing material systems and filament, 3D printing design, analysis of 3D scan data, applications of 3D printing in medicine and other fields, and possibilities for the future from innovations in the 3D printing space. In addition to our panelists, there will be a live demonstration of 3D printing technology.

Our Distinguished Panelists:

Kat Steele Ph.D.

Assistant Professor of
Mechanical Engineering,
University of Washington

Michael Toutonghi

CEO, Founder,
and Chief Scientist,
Functionalize, Inc.

Duane Storti, Ph.D.

Co-Director of the Solheim
Additive Manufacturing Lab,
University of Washington

**All programs are FREE and open to the community.
All are welcome – members, nonmembers, men and women.
